

BUSINESS CONTINUITY AND DISASTER RESPONSE

Overview

STSG's Business Continuity and Disaster Response (BCDR) services deliver a completely orchestrated and fully managed path to resilience. Built on the always on philosophy, our BCDR suite enables organizations to failover critical operations to the cloud in minutes. This ensures data integrity and business uptime remain operational regardless of the disruption

LAYERS OF OPERATIONAL RESILIENCE

THE TECHNOLOGY STACK

Zerto

Real-time replication and journal-based recovery.

veeam

Enterprise-level backup and recovery orchestration.

PURESTORAGE®

Native cloud failover for hybrid environments.

Scalable and cost-optimized disaster recovery to the cloud.

Flash-speed replication for Tier-One workloads.

BUSINESS VALUE

A clinical, tested, and automated recovery posture that transforms Disaster Recovery from a strategy based on "hope" in a practical and tactical asset. Reduce RTOs from hours to minutes and remove the financial risk caused by downtime.
