

(MSSP) MANAGED SECURITY SERVICES

OVERVIEW

STSG's Managed Security Services (MSSP) deliver end-to-end, fully managed cybersecurity from exposure identification to continuous defense. Built around a 24/7 SOC and MDR model, our MSSP enables organizations to detect, respond to, and contain threats with zero operational stress.

LAYERS OF CYBER DEFENCE

BUSINESS VALUE

A fully managed, continuously improving security posture that reduces risk, shortens response times, and eliminates the need for an in-house SOC.
